

Tube 2020: rented exhibition space as large as never before

August 2019

There are about seven months to go until the two international No. 1 trade fairs for the wire, cable and tube industries will open their doors at the Düsseldorf exhibition centre from 30 March to 3 April 2020.

As global information and business platforms for the key players in these industries wire and Tube attract over 2,500 enterprises from all over the world.

The registration figures for **Tube 2020** are already very promising at this early stage. Organisers have posted a strong increase in attendance from Turkey, India and Taiwan, already exceeding the final exhibitor numbers of 2018. In addition to this, strong participation from the traditional exhibitor regions Italy, Spain, Germany, Austria, Switzerland and Central and Eastern Europe points to new record exhibitor figures for next year.

“With the new multi-purpose Hall 1 we offer our exhibitors the latest in terms of technical facilities and ultimate convenience,” stresses Daniel Ryfisch, Deputy Director Metals and Flow Technologies at Messe Düsseldorf.

In exhibition halls 1, 3, 4, 5, 6, 7.0 and 7a Tube 2020 will present the complete process chain in the tube industry. Its extensive portfolio ranges from machinery and equipment for tube manufacturing, forming and processing, to raw materials, tubes and accessories, second-hand machinery, process engineering tools, auxiliaries, measuring and control equipment as well as test engineering. These are complemented by tube trade, tube bending and tube sawing equipment, OCTG technology, pipelines, profiles, machinery and plastic tubes.
